1. The drawings filed April 3, 2006 are acceptable.

Allowable Subject Matter

In a system for processing sheets, the prior art does not teach or make obvious the concept of the crease rolls being operable to fold at least one sheet passing through the folding nip along the process direction and to fold a sticker applied to a sheet moving along the reverse direction in combination with a control system causing the roller pair to move a sheet initially in the process direction then temporarily move the sheet in the reverse direction to receive a sticker from the sticker applicator, and then to move the sheet having the sticker thereon through the main nip in the process direction in the manner claimed by the applicant.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
